INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/KR2005/000932

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-6	YES
	Claims	NONE	NO
Inventive step (IS)	Claims	1-6	YES
	Claims	NONE	NO
Industrial applicability (IA)	Claims	1-6	YES
	Claims	NONE	NO

2. Citations and explanations (Rule 70.7)

The present invention relates to the hot water extract of Nelumbinis Semen having an anti-depressive effect, and a composition comprising the same as an active ingredient for treating depression.

The following document has been considered for the purpose of this report :

D1 = KR 2003-0079104 A (10.10.2003)

1) Novelty

The cited document D1 discloses the aqueous alcohol extract of Nelumbinis Semen having an anti-depressive effect, and a composition comprising the same as an active ingredient for treating depression.

The only difference between the present invention and D1 is the extracting solvent. The subject-matter of claims 1-6 can be regarded as novel (PCT Article 33(2)), because D1 does not refer to the hot water as a solvent.

2) Inventive step

It is well known to the skilled person in the art that both the hot water extract and the aqueous alcohol extract contain almost the same chemical constituents.

Supplemental Box .

In case the space in any of the preceding boxes is not sufficient.
Continuation of:

Box V.

Nonetheless, the present application is found to satisfy the requirement of inventive step (PCT Article 33(3)) in view of the experimental results submitted by the applicants on 19. 05. 2006.

The applicants have supplied data showing that the hot water extract of the present invention has a little different chemical constituents and an improved pharmacological effect, compared with the aqueous alcohol extract described in D1.

It could not be easily foreseen from the cited document D1 that the hot water extract exhibits an enhanced pharmacological activity, compared with the aqueous alcohol extract.

Consequently, the subject-matter of claims 1-6 is considered to fulfil the requirement of inventive step (PCT Article 33(3)).

3) Industrial applicability

Claims 1-6 meet the criteria set out in PCT Article 33(4).
